No. 19

A GALA DAY.

School Exhibition a Decided Success Financially and Socially.

Citizens Turn Out in Great Numbers in Support of Library Movement—Credit Due Teachers

Yesterday was certainly a memorable day in the history of the school children, and altogether the teachers and students ought to feel proud of the effort made. In every way the affair, which had for its object the increasing of the school library, was successful; and from the expressions heard by parents and students generally it was the biggest day in the public school history of Cedar for many a year.

The parade was a novel feature, some of our older citizens expressing the opinion that it was the best Cedar had ever seen. Led by the Normal band, the children representing the various nationalities they had studied at school, moved through the principal streets and made a splendid pageant.

At eleven o'clock the procession moved into the school campus where a special program was rendered by the various departments. After the program, the citizens were invited to go through the rooms, where a very creditable display of the work of the children in all the grades was shown.

Then came the refreshments from the sale of which the teachers and students hoped to get means for library extension. And the citizens generally were very patriotic in their support; for in less than an hour they had bought nearly every thing eatable in sight thus necessitating those in charge sending out for more. There were on sale at the various booths sandwiches, lemonade and ice cream, all of which were up to the standard, smacking in no way of the circus order.

Then came the base ball game, between Kanarra school and the school of Cedar; and although Cedar won it was only by a very small margin. The game was certainly a creditable one; some of the boys playing like old veterans of the diamond. The following was the line-up:

Cedar		Kanarra	
A. Nelson	c.	J. Roundy	
John Brinograd	p.	L. Roundy	
Raes Bryant	f. b.	K. Williams	
John Lunt	s. b.	L. Williams	
Lew Nelson	t. b.	L. Williams	
E. Perry	s. s.	N. Williams	
Parson Webster	i. f.	Carlos Smith	
Ashton Jones	c. f.	Wells Williams	
Logan Bryant	r. f.	Adila Wood	

The object of this exhibition is to increase the school library, which at the present time is very limited and entirely unsatisfactory. Prin. Stewart stated today that about forty dollars had been raised. This insures an addition, if the money is properly spent, of about two hundred small volumes to the school library.

For Whooping Cough.

Give Chamberlain's Cough Remedy. It will keep the cough loose, expectoration easy and render the fits of coughing less frequent and less severe. It is safe and sure. For sale by Palace Drug Store.

Easter Sunday.

Easter Sunday was quietly spent in Cedar. The day was rather inclement and many parties that had arranged to go to the canyon or hills to spend the day had to be abandoned.

There were, however, several gatherings at residences and the spirit of the day made manifest to a certain degree.

There were no special services in either ward, and in fact it would seem that the older people of the town had somehow forgotten the day. It was left to the young to do all the celebrating.

Quite an excitement is stirred up in Beaver over the reported find of rich gold ore near that city. The ore assays in gold values from \$10 to \$40 to the ton. Many miners are flocking to the place and quite a little mining boom is on.

Do you use printed stationery? If not, why not? THE RECORD.

Summit Briefs.

Summit, April 14, 1909.

Herbert White has given the contract to Isaac Lemmons of Parowan to move his house which he bought of Jos. E. Jones.

The two year old daughter of Mr. and Mrs. Benjamin Lawrence is very low with Typhoid fever. The little one had been ailing for quite a while before she took to her bed.

Word has been received here that the boys who left here to freight from Bristol to Pioche will return about the 1st of May as the mines there have shut down.

Misses Ada Dalley and Dena Williams are with us again, returning from Escalante. The former has been teaching music and the latter teaching school.

Isaac Langford and Mrs. Martha Dalley have returned home from Salt Lake City here they have been to conference.

Exempt From Examination.

At a meeting of the State Board of Education held April 3, 1909, it was resolved to exempt teachers from the county teachers' examinations this year whose examination record of 1908 shows an average of 75 per cent in all subjects and not less than 60 per cent in any one subject, provided that their school room work is endorsed by their county superintendent, and provided also that they file in the office of the State Superintendent of Public Instruction not less than six units of 1909 accredited summer school work, three hours of which must be new work. It was further resolved that teachers who do not file summer school credit will be exempt from examination in subjects in which they have an examination record of 80 per cent. Teachers who have not secured their examination record of 1908 should do so at once. The examination for county certificates will be held in each county June 1, 2, 3 1909. Teachers who do not attend summer school should take the examination as there will not be another held this year. Sufficient material for review in Nature Study will be found in the Bulletins issued by the State Normal, or in Hodges Nature Study.

Rheumatism.

More than nine out of every ten cases of rheumatism are simply rheumatism of the muscles, due to cold or damp weather or chronic rheumatism. In such cases no internal treatment is required. The free application of Chamberlain's Liniment is all that is needed and it is certain to give quick relief. Give it a trial and see for yourself how quickly it relieves the pain and soreness. Price 25 cents; large size 50 cents. Sold by Palace Drug Store.

Eighth Grade Examinations.

The county superintendent of schools gives out the information that the examinations of the students of the eighth grade in the different districts will be held as follows: First examination April 22, 23, 24. Second May 25, 26, 27.

Word has also been received from the different districts that there will no doubt be a good percentage of the students pass this year at the first examination and that the students are working faithfully to this end.

For Constipation

Mr. L. H. Farnham, a prominent druggist of Spirit Lake, Iowa, says: "Chamberlain's Stomach and Liver Tablets are certainly the best thing on the market for constipation." Give these tablets a trial. You are certain to find them agreeable and pleasant in effect. Price 25 cents. Samples free. For sale by Palace Drug Store.

Teachers to Take Holiday.

The teachers of the Cedar District School will take a much needed holiday tomorrow, going to Enoch where they will forget their work and spend the day near to nature. It is a foregone conclusion that they will enjoy themselves as only a bunch of hard working teachers can when untrammelled with the cares of the school room.

Notice to Sheep Interests.

Sheep owners, sheep shearers and sheep herders, lend us your ears for a few moments. The harvest is now ready. The men have gone forth with their shears to reap. You will now have a little surplus money, no doubt, and if not any surplus, you will have some with which to pay your store bills and other obligations. We invite you to deposit your money with us and obtain a check book with which to pay your bills. By so doing you will have an infallible receipt for all your transactions and thus avoid future trouble. If you wish to lay by a little money for tax time just leave it with us for six months and we will pay you interest on same at the rate of 4 per cent per annum.

Bank of Southern Utah.

Matheson and Record Scored.

Editor Record:—In your last issue you published an article from the pen of our respected friend, Alex. Matheson, relating to the evils derived from the great inventions of the nineteenth and the present centuries. Our friend seems to think that the end is not yet, for he tells us that daily more machinery is being invented and perfected, all the time increasing the army of the unemployed.

Your space will not permit me to go into detail and enumerate the many comforts and blessings the human race has received from the products of the fertile brains of our great inventors; in fact the comforts are too well known to require any enumeration from me, but the enterprising and progressive citizen will naturally ask a few questions. Would our friend Matheson have the world go back to the tinder box, the flint and steel and the tallow dip? Would he have us go back to the old stage coach, the town bell or the night watchman? Can our friend take his mind back to the time when education and the fine arts were the privilege only of a select few? Has he ever reflected upon the time when "might became right" and brute force prevailed; would he have us go back to the wooden block printing press and the quill pen; would he have us go back to the sickle and scythe and the cradle; would Mr. Matheson discard our horse and steam power threshers and sink time to the flail; would our beloved friend have us go back to the hand sewing needle; the tin reflector and brick oven; would our friend cut down our wires and go back to the messenger boy and pony express; would our friend take us back to the old time ducking stool and gibbet? In short, would our respected citizen turn the wheels of progress back one hundred years? Spare us these horrors and let us thank God for the divine intelligence of the nineteenth and the present century.

Now, Mr. Editor, in the opinion of the writer there are three legal objections that can be lawfully made to the article in question.

First—Mr. Matheson's paper is at least seventy-five years behind our times.

Second—His article should have been published in a paper whose business it is to agitate, grumble and find fault in general.

Third—The editor of the Record made a mistake by giving said article space.

JOHN R. FRETWELL.

A Healing Salve for Burns, Chapped Hands and Sore Nipples.

As a healing salve for burns, sores, sore nipples and chapped hands Chamberlain's Salve is most excellent. It allays the pain of a burn almost instantly, and unless the injury is very severe, heals the parts without leaving a scar. Price 25 cents. For sale by Palace Drug Store.

Notice.

The general annual meeting of the Cedar City Light & Power Co., will be held in the State President's office, Bank Building, on Monday, April 19th, 1909, at 8 o'clock p. m., for the election of officers for the ensuing two years, and rendering of officers reports.

J. H. ARTHUR, Ass't.-secretary.

Tetter, Salt Rheum and Eczema. Are cured by Chamberlain's Salve. One application relieves the itching and burning sensation.

Parowan Briefs.

Parowan, April 14.

Born to Mr. and Mrs. John Dalton, on the 3rd, Inst. a son.

Born to Mr. and Mrs. H. M. Hendrickson, on the 4th Inst., a son.

Paragonah and Pangutich are to enjoy the comforts of electric lights in the near future.

Miss May Ward of this place, who has been teaching in Provo is in town, having come on account of her aunt's death.

Mrs. Solomon Wardell, who has been residing in Big Horn, Wyoming, for the past few years, is visiting with her aged parents.

Not a few of our townspeople are grading and paving their side walks, adding beauty to our town and comfort to pedestrians. Such people are real benefactors of mankind.

William W. Page is in town again, accompanied by his musical family. They will give a grand ball next Friday.

Oscar M. Lyman, our new miller, is furnishing the public with flour, of fairly good quality, but practice makes perfect, and there is no doubt but that he is on the road to success in this line.

The operetta given last Friday evening deserves the highest praise, and was the best ever given in that line. It was also a success financially, and was given in behalf of the Parowan Sunday School.

Messrs. Don Orton, Joseph Bentley, Jr., and John Mickelson have into town last week. They have been working at Bluff, San Juan, Utah. Miss Eva Bentley, who has been visiting relatives there has also returned.

Mr. Drew, the engineer and machinist who has been employed as engineer on the Parowan Steam plow and grubber, has returned to Lund, and Mr. Day is running the plough himself. It is at work now on Mr. Culver's farm West of town and is doing excellent work, clearing about 40 acres per day.

We have the telephone exchange fully installed in Parowan now, and Walter W. Pankey, who has been managing the affair, states there are close on to forty families who have phones in their homes. With as patient and capable a person as Miss Alice L. Matheson stationed at central, the people of Parowan, as well as those of surrounding settlements, are being well served. Parowan has taken another step forward and as a result her people are more united both socially, financially and spiritually.

Excursion Rates to High School Meet.

The railroad company has offered one-fare round trip to Salt Lake City for the State High School meet, beginning May 20, provided twenty five tickets are sold. The Branch Normal will furnish ten or twelve tickets, and would like the people of Cedar and vicinity to help swell the crowd to the required number.

All who intend to take advantage of the cheap rates to visit the capital and see the great "meet" will confer a favor on the Normal Athletic association if they will hand in their names to instructor Foster as soon as possible.

Try our Old Hampshire Bond or Alexandria Linen Bond for office stationery and you will buy no other. THE RECORD.

He Forgot The Printer.

They counted him an honest man, Through Summer, Fall and Winter. He paid the butcher every week— But he clean forgot the printer. He settled with the bank each month; The balance made him caper, But he owed at least two years or more For the little village paper.

He went to church and Sunday school, To Thursday night prayer meeting, For each "reform" that came his way He had a hearty greeting. For every "high" and "holy" cause You'd always find him praying, And he took the paper "to help it along."

But he never thought of paying.

He had a "pull" in politics, The candidates all sought him, But when he did ne'er balance up With the revenue it brought him. And so, from year to year, this, This sepulcher all whitened Went on his way dispensing grace To sinful man benighted.

And when at last Time's ruthless scythe Cut down the withered weed, His heirs prepared a fairy tale For witless man to read.

His soul released from earthly bonds Now rests where there's no winter, And they know above—or down below— That he never paid the printer.

—Prentice News.

We often wonder how any person can be persuaded into taking anything but Foley's Honey and Tar for coughs, colds and lung trouble. Do not be fooled into accepting "Lawn mow" or other substitutes. The genuine contains no harmful drugs and is in a yellow package. Palace Drug Store and John T. Mitchell, Parowan.

Things to Forget.

If you see a tall fellow ahead of a crowd,

A leader of men, marching festive and proud, And know of a tale whose mere telling aloud, Would cause his proud head to in anguish be bowed. It's a pretty good plan to forget it.

If you know of a skeleton hidden away

In a closet and, guarded, and kept from the day In the dark; and whose showing, whose sudden display Would cause grief and sorrow, and lifelong dismay, It's a pretty good plan to forget it.

If you know of a thing that will darken the joy

Of a man or a woman, a girl or a boy, That will wipe out a smile, or in the least way annoy A fellow, or cause any gladness to cloy, It's a pretty good plan to forget it.

—Anonymous.

Foley's Honey and Tar is a safeguard against serious results from spring colds, which inflame the lungs and develop into pneumonia. Avoid counterfeits by insisting upon having the genuine Foley's Honey and Tar, which contains no harmful drugs. Palace Drug Store and John T. Mitchell, Parowan.

A Kansas editor prints a "pretty piece" telling "How to Get to Jayville." The directions for reaching Jayville are also quite simple. Follow the bad roads on the wrong side, and keep turning to the left until you reach a dilapidated settlement that boasts of being "entirely free from bonded debt," and the merchants refuse to advertise in the local paper. Then hitch to one of the wooden awnings, because you are There.—Kansas City Star.

If you have backache and urinary troubles you should take Foley's Kidney Remedy to strengthen and build up the kidneys so they will act properly, as a serious kidney trouble may develop. Palace Drug Store and John T. Mitchell, Parowan.

We have a good assortment of late and popular type faces and can do your printing in a workman-like manner. THE RECORD.
